## Membership provides access to helpful information and tools to enhance awareness in the following areas:

### Mind & Emotions

Your mind is powerful. Along with physical health, mental health is equally paramount in the well being of you and your loved ones. We provide you with different methods and tools that can make your mind stronger and better balanced with information regarding meditation and emotional intelligence.

### Body

Our bodies are the physical embodiment of our souls. They need proper nourishment, sleep, and exercise to truly reach their highest potential. As adults, we can use the tools and information provided by UCAA to not only benefit ourselves but our children as well, as they are our future.

### Spirit

In these difficult times we are living in, spirituality is one of the most important factors for our health and well being. We live in a world filled with challenges that take us away from our miraculous souls. UCAA endeavors to provide the tools needed to reclaim our innocence, our loving nature and boldness of bliss.

### Caring for Children

Thanks to your membership, we together have helped care for children globally.

**In the developing world**, beginning in Africa, UCAA partnerships support Save the Rain ([www.savetherain.org](http://www.savetherain.org)); providing engineering, construction and monitoring of rain catchment and harvesting solutions to provide clean drinking water to water starved villages.

One such village received an 80,000 liter rain catchment system all using local labor, materials and community management. This project provided clean water to over 2,500 villagers, not only for their lifetime but for their offspring as well.

### Health

UCAA is dedicated to informing members of various health issues relating to men, women, children and aging gracefully. Whether the issue is fitness, dieting, or early detection of disease, just having this knowledge readily available at our site can lead to your improved well-being.

### Environment

Our goal is to provide opportunities for environmental education. Together we can work towards a healthier, cleaner, and sustainable environment for all people. Issues such as climate change, energy efficiency, and recycling affect everyone. With the information provided by UCAA, even small actions can have a positive impact on the planet.

### Financial Security

UCAA's intention is to offer our members the ability to educate themselves to make the most informed choices possible. Major issues such as life insurance, emergency funds, debt consolidation and elimination, retirement and college planning all have a profound effect on an individual or families financial position.

**In the developed world**, UCAA partnerships have funded the development of tools to help children deal with their emotions. In a time when autism, spectrum needs, and social issues are growing, UCAA partners assist in the research and development of the Onionhead animated character for children. Onionhead's ([www.onionhead.com](http://www.onionhead.com)) mission is to teach kids (of all ages) what to do with what they feel.
